THE ORIGAMI^3 SERIES

features the Factor-X technologically advanced concave. This concave was engineered to push the envelope of skateboarding by creating a high performance, light weight, super strong board.

All origami^3 series boards are ultra-light, 7-ply, except the icon board, which is 9-ply.

THE ORIGAMI BASIX

feature the Factor-M concave. This concave was developed for technical skateboarders who need a flatter, more comfortable deck, but still require excellent pop and strength.

All origami basix boards feature a stealth media icon spot varnish and are ultra-light, 7-ply, except the icon board, which is 9-ply.

MEDIA WHEELS

use aircraft-grade, high-density urethane and are designed for technical, high-impact riding.
